

## How to Join the KLU Wireless Network on iOS

Following instruction will show you step-by-step how to join the wireless network “The KLU” on your iPhone or iPad.

### 1. Adding the Wireless Network

NOTE: the wireless network has to be in range in order to add it to your device

- Go to “Settings” – “Wi-Fi”
- Beneath “Choose a Network...” tap on “The KLU”
- You will be prompted to state your credentials
- After you filled in your credentials tap on “Join” in the upper right
- The next screen will show an unverified certificate (the-klu.org)

- Tap on the “Accept” button to verify it
  - You are now connected to the klu wireless network
- NOTE: future logons are not necessary – the credentials will be stored in the system. Once you are in range of the network it will automatically connect.
