WHAT IS MOODLE?

Dear KLU students,

KLU applies Moodle as our learning platform. Primarily it supports our lecturers to provide you with all relevant information and course material (syllabi, lecture slides, etc.) for each module / course. Some lecturers also ask you to submit your assignments via this platform and use the forum function for communicating within their module / course.

Additionally, KLU’s service departments provide you with relevant information, guidelines, templates, and support materials via the Moodle platform.
HOW TO LOG IN

- You can access Moodle via https://myklumoodle.the-klu.org
- Log into your Moodle account with your KLU email address and your password
