How to Join the Eduroam Wireless Network on iOS

Following instruction will show you step-by-step how to join the wireless network “eduroam” on your iPhone or iPad.

1. Adding the Wireless Network
   NOTE: the wireless network has to be in range in order to add it to your device
   - Go to “Settings” – “Wi-Fi”
   - Beneath “Choose a Network…” tap on “eduroam”
   - You will be prompted to state your credentials
   - After you filled in your credentials tap on “Join” in the upper right

   - The next screen will show an unverified certificate
   - Tap on the “Accept” button to verify it
   - You are now connected to the eduroam wireless network
     NOTE: future logons are not necessary – the credentials will be stored in the system.
     Once you are in range of the network it will automatically connect.
