VPN ANYCONNECT INSTALLATION - WINDOWS

STEP 2: Click on AnyConnect.

Note: You might see a message telling you „Connection failed". It's unrelated to the process, just proceed like shown on the screenshot.
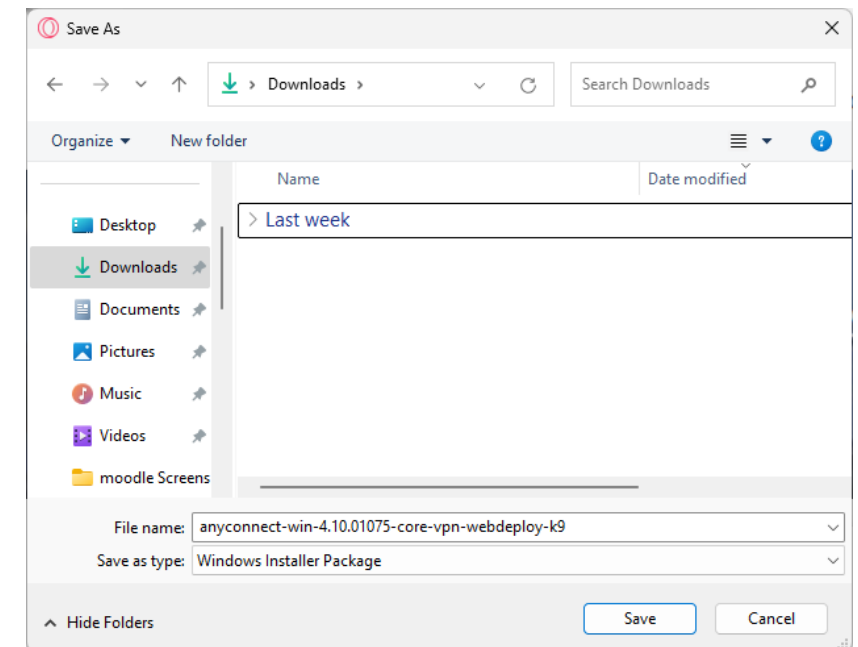

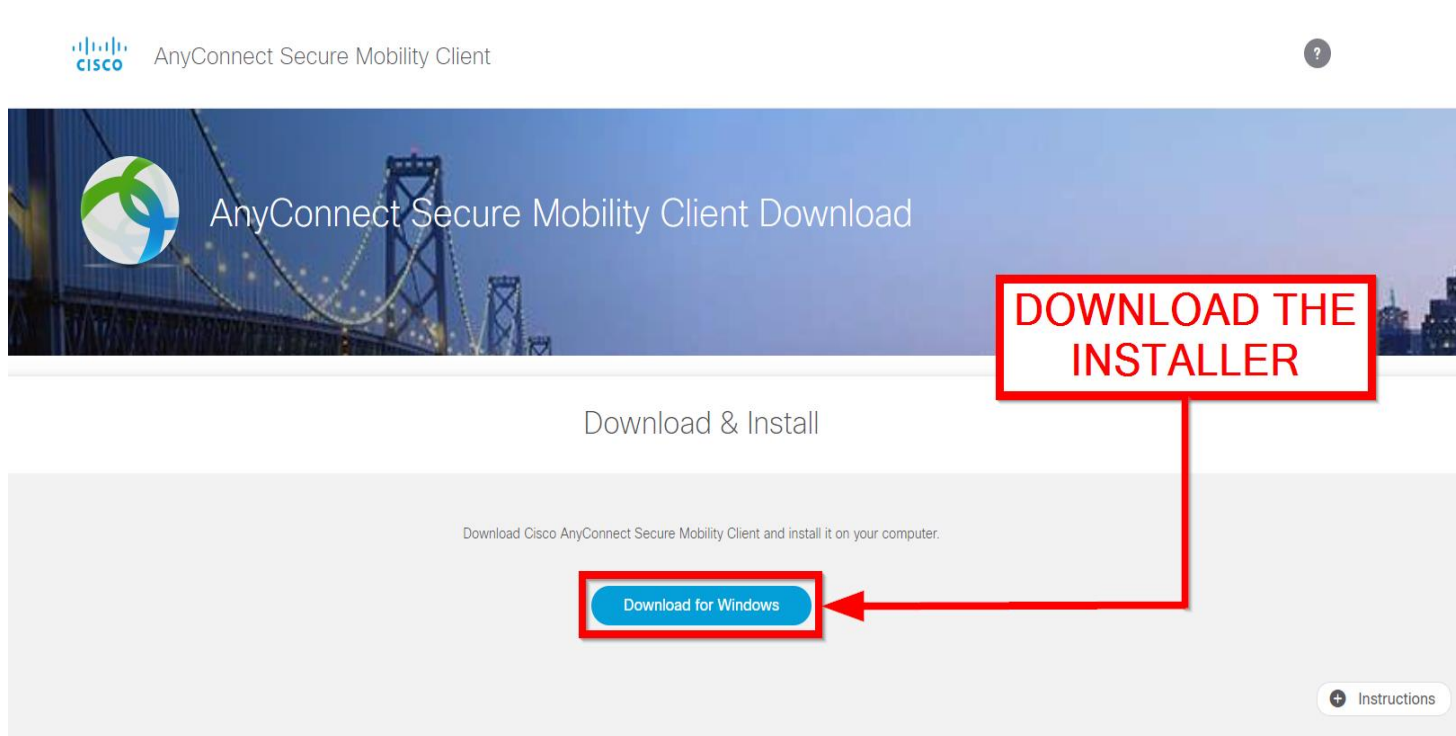

VPN ANYCONNECT INSTALLATION - WINDOWS

STEP 3: Click on „**Start AnyConnect**".

VPN ANYCONNECT INSTALLATION - WINDOWS

KLU
KÜHNE LOGISTICS UNIVERSITY

STEP 4: Click on the „**Download for Windows**" button and choose a destination for the VPN-Client Installer file (for example your „Downloads" folder).

Locate the installer and run it to install the VPN-Client on your device.

*In some cases it automatically downloads directly to your „Downloads" folder

VPN ANYCONNECT INSTALLATION - WINDOWS

STEP 5: If installed correctly, the VPN-Client will show up on your desktop as shown on the screenshot. (You can also search your computer for „AnyConnect" to drag&drop it onto your desktop)

Now run the VPN-Client AnyConnect. It should open a small window with a blank profile.
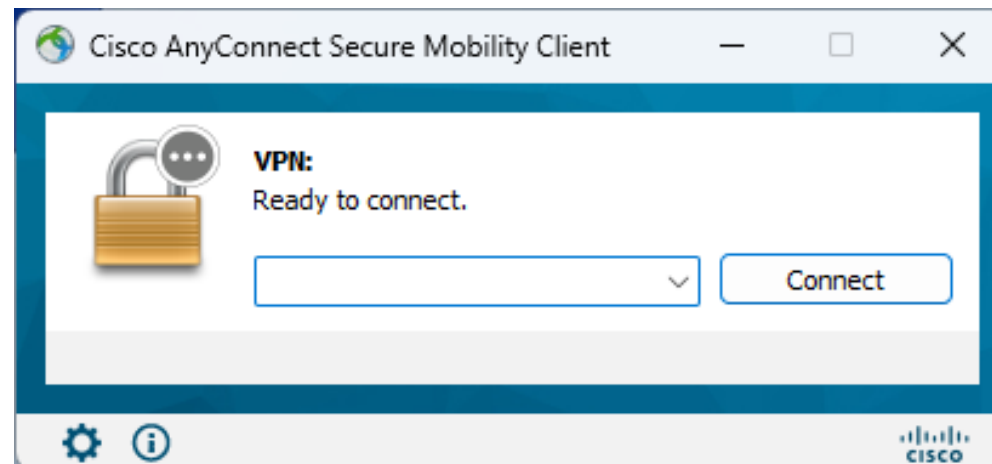

VPN PROFILE: VPN.THE-KLU.ORG

**STEP 6:** There are two VPN profiles you can use for different access:

■ **vpn.the-klu.org** – This is a split tunnel VPN. Please use this profile if you want to use Zoom/Teams and access the RDP server at the same time. Once connected, the profile will be saved for future connection attempts.
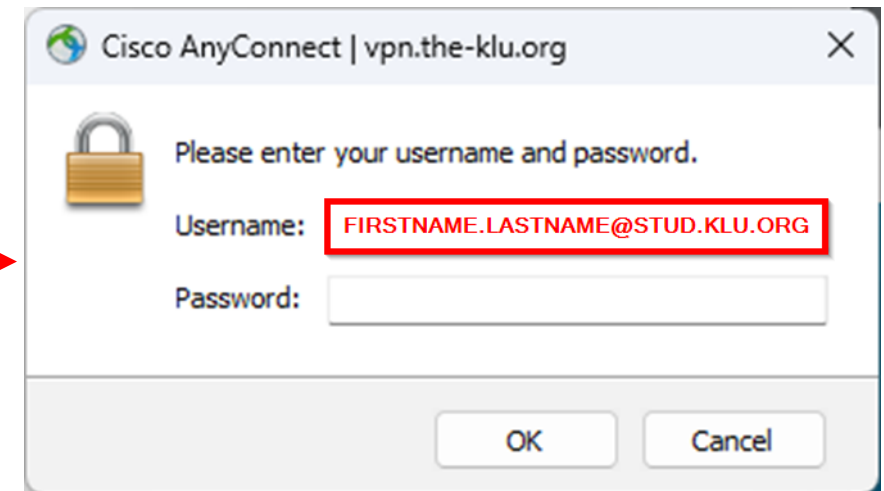

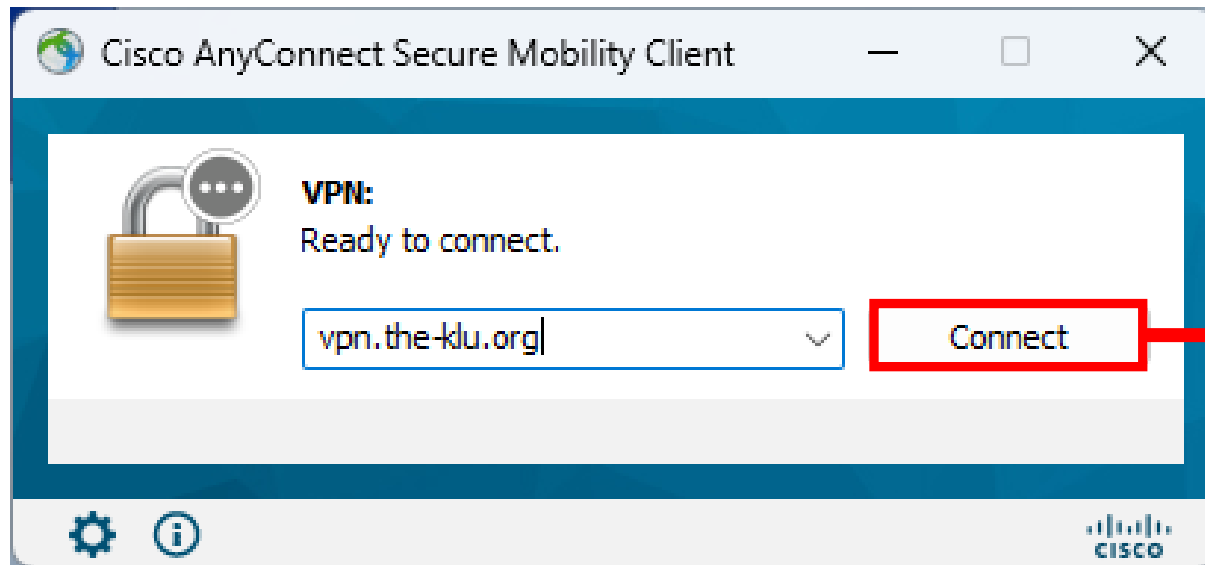

VPN PROFILE: VPN.THE-KLU.ORG/LIBRARY

- **vpn.the-klu.org/library** – This is a fulltunnel VPN. Please use this profile if you want to access the library resources. You have also access to the RDP Servers.

  <u>Note:</u> Please do not use this profile with Zoom/Teams. Your Zoom/Teams session will be very slow.
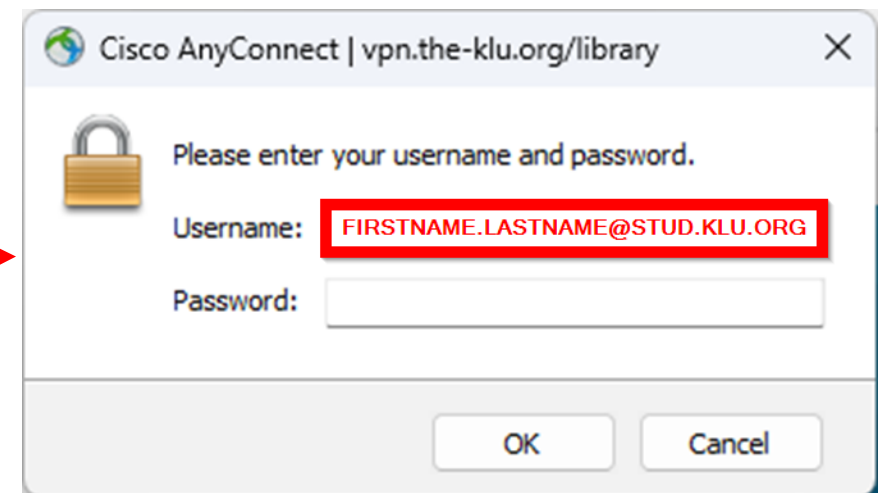

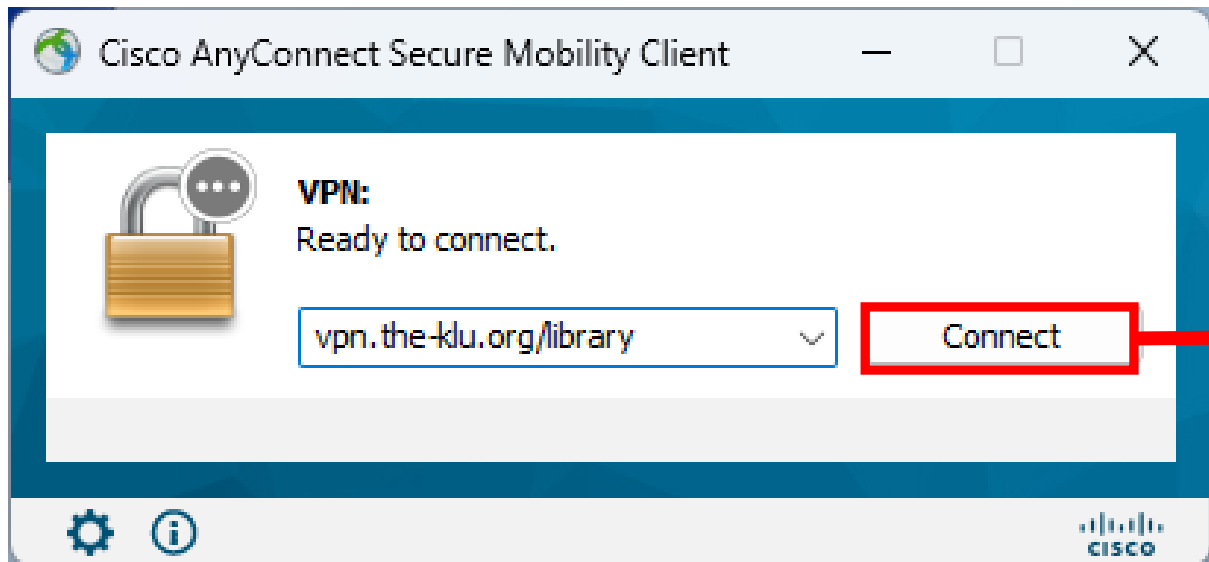

SUCCESSFUL VPN CONNECTION

STEP 7: After entering your login details and connecting with the VPN it should show up in your System-Tray as shown on the screenshot.

A lock infront of the symbol indicates a secure connection.

If you ran into any errors please contact us via servicedesk@klu.org.
